

Corporate Giving Fund

HOW IT WORKS

A Corporate Giving Fund administered by the Community Foundation of Greater Huntsville provides companies with a low-cost, simple and convenient vehicle to manage their charitable corporate giving.

STEP 01

Money Comes In

Company or individual donors contribute to the corporate giving fund. Employees donate to company's corporate giving fund through payroll deductions, which the company remits to the Community Foundation no more than quarterly.

STEP 02

Funds Are Invested

Designated company representatives can view fund balance and activity online through DonorCentral. In December, the company sends spreadsheet with information about employee payroll deductions to Community Foundation, who provides a tax receipt to employees no later than January 31.

STEP 03

Grants Go Out

Designated company representatives may make grants from the corporate giving fund using either the Grant Suggestion Form or the online DonorCentral portal. Grant checks are mailed to the nonprofit organization, or picked up to present in person if noted in grant request. Grant checks are typically available in 5-7 business days.
